# 2025 COHORT MODULE 3: PRESENTATION SKILLS & WORKPLACE READINESS

Module 3 focused on developing **professional readiness skills**.

Deborah Glover (from Business Presentation Group) shared practical techniques for delivering impactful presentations and leaving lasting impressions. In doing so, the ladies sharpened their presentation skills, practicing with real-time feedback on their Valuation presentation dry-runs - a standout moment for many.

The module also touched on exploring leading time management techniques, and the mindset shifts necessary for new rotations.

A highlight was the guest presentation from EPPF *(left image)*, which offered practical insight into the world of asset owners.
